Preface

Curriculum Development Centre (CDC) revises curricula and textbooks on a regular basis to make education relevant to changed context. Keeping to the tradition, the new Basic Level Curriculum (Grades 1-3) developed as an integrated form is based on the guiding principles of National Curriculum Framework 2019. To see their relevance and practicalities, both the curriculum and the workbook of Grade Two are to be piloted in 100 schools across the country in the academic year 2077 BS. The book has been organized under ten multidisciplinary and subject specific themes and incorporates the competencies and the language functions outlined in the curriculum. This book can be used as a textbook as well as a workbook.

This book has been developed by a team comprising of Prof. Dr. Laxman Gnawali, Mr. Nim Prakash Singh Rathaur, Mr. Shankar Adhikari, Mr. Nabin Kumar Khadka and Mr. Ramesh Dhakal. Various people have contributed to bring this book in this form, notably; Mr. Keshav Prasad Dahal, Mr. Tukaraj Adhikari, Prof. Dr. Bal Mukunda Bhandari, Dr. Gangaram Gautam, Dr. Gopal Prasad Pandey, Mr. Purna Bahadur Lamichhane, Mr. Gangadhar Hada, Mr. Mahendra Kumar Shrestha, Ms. Rani Jha and Mr. Uddab Bhattarai. The illustration of the book has been done by Mr. Dev Koimee and the layout design by Mr. Khados Sunuwar. The Centre would like to extend its sincere thanks to all the people who have contributed for the development of this book. The CDC would also like to acknowledge to all the sources of the materials used in this book.

An attempt has been made to make this book accessible and learner friendly. In order to make its effective use, the teacher needs to be a facilitator in the classroom. The Centre believes that it will also work as a self-access learning resource for the students.

The Centre always welcomes constructive feedback for bringing improvements in its materials.
